Ref: Request for Help to Implement Decision to Prevent COVID-19

COVID-19 has turned out to be a global pandemic and a cabinet meeting of Government of Nepal dated 12th March, 2020 was held to make immediate decisions on its prevention and control. With reference to the cabinet decision on **quarantine** (Incoming Tourists should self-quarantine for 14 days and Incoming Nepali should home-quarantine for 14 days), it has been reported through different media platforms that this decision on quarantine has not been duly implemented. At this moment of crisis, we expect your kind cooperation and would request all the Nepalese Travel Trade Associations to strictly implement this decision as well as monitor the implementation of this cabinet decision among your member companies.

Thank you for your co-operation.

Dr. Dhananjay Regmi
Chief Executive Officer
